

## Team meetings

3rd Annual Meeting, Vienna, September 2023

The PURE team had the opportunity to meet in person for the 3rd Annual Meeting, hosted by BOKU (AT) in Vienna. In February 2024 the 13th General Assembly took place in Portugal, organised by iBET (PT). Our last in person meeting took place in September, this time at NOVA FCT (PT). In the meantime and until the end of the project, our meetings will take place online weekly. Stay tuned for our discoveries!

13th General Assembly, Portugal, February 2024

4th Annual Meeting, Portugal, September 2024

## PURE Video & Theater Play

The consortium has been working hard to ensure that the science they do reaches and is understood by everyone and not just by the scientific community.

Filming of the project's videos has recently taken place and will be released on the project's digital platforms. Check [here](#) to see the short-version!

For children, in partnership with the theater company CATIVAR, the project reached middle schools as a theatre play.
